## Work History

Technosoft Solutions (Pvt) Ltd	Jan 2020 - Present (4 months)
--------------------------------	-------------------------------

### Software Engineer / Software Developer

Lahore, Pakistan

I joined Technosoft on 1st January, 2020. My goals at Technosoft is to manage teams, train junior resources, communicate with client and develop client projects..

Devsinc	Jul 2017 - Dec 2019 (2.4 years)
---------	---------------------------------

### Software Developer / Software Engineer

Lahore, Pakistan

I worked as a full stack software engineer at Devsinc. I have 2 years and 6 months of experience in Ruby on Rails along with Reactjs and Angularjs

## Projects

Petstablished	Jan 2020 - Present (4 months)
---------------	-------------------------------

Company: Technosoft Solutions / Marcin

<https://petstablished.com/>

Tools: Ruby on Rails, AngularJs, VueJs, Trello, github, AWS, jenkins

ScopeAR	Sep 2019 - Dec 2019 (3 months)
---------	--------------------------------

**Company:** Devsinc

<https://www.scopear.com/>

**Tools:** Jira, Ruby on Rails, Reactjs, AngularJS, AWS

Scope AR built its reputation on creating excellent custom augmented reality projects for some of the most discerning organizations in the world. Whether your needs are extensive or straightforward, we can offer a level of service unmatched in the augmented reality industry.

Eduleaf	Aug 2019 - Present (9 months)
---------	-------------------------------

**Company:** Devsinc

<https://eduleaf.com/>

**Tools:** Ruby in Rails, OpenCV, cpp, Jira, AWS

Eduleaf is an automated online tool that allows the grading of ordinary paper-based exams containing any type of questions. It can handle math questions, chemical diagrams, essay questions, as well as multiple-choice.

Web2kan	May 2019 - Present (1 year)
---------	-----------------------------

<http://web2kan.com/>

**Tools:** VueJS, Rails, S3, Heroku

Web2kan is my personal project which is under development but is deployed. Product provides whitelabels to local shops. It creates dynamic header and footer details. Shops can have their own website using subdomain of web2kan.

BookJane	Jan 2019 - Aug 2019 (7 months)
----------	--------------------------------

**Company:** Devsinc

<https://bookjane.com/>

**Tools:** Rails Api + React, Jira, Postman, AWS

BookJane's platform, J360, is addressing the inefficiencies in finding certified caregiver professionals and qualified service staff when needed.

Soono Survey	Nov 2018 - Feb 2019 (3 months)
--------------	--------------------------------

**Company:** Freelance

<https://mysoono.com/>

**Tools:** React + Rails API

Easy surveys and excellent customer analysis system

MyIntellirent	Sep 2017 - Nov 2018 (1.2 years)
---------------	---------------------------------

**Company:** Devsinc

[www.myintellirent.com](http://www.myintellirent.com)

**Tools:** ruby on rails, Jenkins, heroku, selenium, capybara, pivotal

Intellirent lets renters fill everything out online and pay just one application fee. That single fee covers every apartment in our network. Leasing agents reclaim lost hours so they can do what they do best—lease great apartments to great renters.

Voice to the Voiceless	Jan 2017 - May 2017 (4 months)
------------------------	--------------------------------

**Company:** V2V

**Tools:** Arduino, Android Studio, Flex sensors, gyro

We developed a glove for dumb and deaf persons who cannot speak. They make sign with their hand and our android app speech the particular word and also displayed it on screen
